OUR BELIEFS

We believe an exceptional education should cultivate those habits of mind and character that enable individuals to flourish at each stage of life. Casady School's proven college-preparatory curriculum focuses on the full development of each student in mind, body, and spirit.

We believe the mind should be nourished and developed; therefore, our academic program provides our students the challenges and opportunities necessary to develop critical and creative thinking skills, the ability to plan, evaluate and implements actions, and most importantly, the support to nurture their passions.

We believe competitive athletics and physical education are central to the development of leadership and teamwork as well as self-confidence and respect for others. Our students are participants rather than simply spectators. Casady provides healthy and competitive opportunities that are critical to developing an appreciation for wellness and fitness in each student.

We believe strong spiritual and moral values provide an essential foundation for one's life; therefore, the School provides instruction in the basic tenets of the Christian faith as expressed in the Episcopal tradition. Central to the school are daily chapel services and instruction in theology and ethics. Casady embraces individuals regardless of belief and values an understanding of all faiths.

As such, we help our students succeed by challenging and supporting them in every aspect of their educational experience. The result is that our students are given every opportunity to realize their potential and use it to make a difference in their communities.
